

but we are aware that they are currently not accurate. An update to the Home Office database is being made to address this issue. To provide accurate information at this time would require manual searching which would breach the FOIA cost limit.

Yours sincerely

## Annex A – Information released

### Notes

- 1) These statistics have been taken from a live operational database. As such, numbers may change as information on that system is updated.
- 2) Trafficking data extracted 29/03/2019. Discretionary Leave data extracted on 09/04/2019.
- 3) 'Number of people subsequently Granted DL' are those who received a positive Conclusive Grounds (CG) trafficking outcome between 01/04/2018 and 31/12/2018 and then on or after the CG outcome date were granted Discretionary Leave (between 01/04/2018 and 31/12/2018).
- 4) 'Number of people not subsequently Granted DL' are those who received a positive Conclusive Grounds (CG) trafficking outcome between 01/04/2018 and 31/12/2018 for whom there is no record of a grant of Discretionary Leave (between 01/04/2018 and 31/12/2018) which falls on or after the CG outcome date.
- 5) In Table 1, 'Minor' represents those who were less than 18 years of age at the time of the CG decision. Those who were aged 18 or over have been counted as 'Adult'.
- 6) Section 40(2) has been used to withhold figures where the answer is 10 or less. This is to protect identities of individuals.
- 7) The figures we have provided below are extracted from our database, but we do not believe they are an accurate representation of the information you seek. This is because any case in this time frame which has a Victim of Trafficking – No Leave to be Granted Conclusive Grounds outcome does not necessarily mean that the individual has had a decision not to grant them DL under the NRM. We are currently unable to distinguish accurate figures at this time without extensive manual searches to data cleanse this information.

**Table 1 - Individuals who received a positive Conclusive Grounds (CG) decision between 01/04/2018 and 31/12/2018, who were subsequently granted / not granted Discretionary Leave (DL) during this period, broken down by age**

Age	Number of people subsequently granted DL	Number of people not subsequently granted DL
Adult	107	907
Minor	*	223

The information concerning the number of people subsequently granted DL has been partially withheld under section 40(2). This is because the number of minors is less than 10 and providing the full figures held could lead to their identities being known.

**Table 2 - Individuals who received a positive Conclusive Grounds (CG) decision between 01/04/2018 and 31/12/2018, who were subsequently granted / not granted Discretionary Leave (DL) during this period, broken down by gender**

Gender	Number of people subsequently granted DL	Number of people not subsequently granted DL
Female	53	562
Male	55	568
